DISCOVER WHAT'S AT THE CENTRE

POWER PARADIGM DIALOGUE

"What lies behind us and what lies before
us are small matters compared to what lies
within us"

Ralph Waldo Emerson

Come and join Deirdre Morgan in an exploration of power. "Power" as we once knew it is changing, and moving towards "Empowerment". We are living from the inside out now. Your power comes from within you, and your connection to this is essential in order for you to live your potential.

This interactive workshop can help you to shift and integrate the new paradigm into your awareness.

- Become aware of how you view "power"
- Learn to use this power successfully
- Look at the changing paradigms we are all living through and see how they are affecting you personally
- Reintegrate your core beliefs and attitudes without the baggage

In this workshop we will review our choices and expand our potential.

When we shift within, we shift the collective, and in perfect order, we all move forward.
