DISCOVER WHAT'S AT THE CENTRE

HAND ANALYSIS WITH FRED CARREO!

Have your hands thoroughly examined (shape, color, texture, marks, lines, and fingerprints) to piece together the individual facets of your life and put into the framework of your Soul's Agenda.

Your Soul's Agenda is encoded in your fingerprints. The lines and shape of your hand can change. They represent your personality and development in this lifetime. Your fingerprints NEVER change. Your fingerprints are created the sixteenth week after conception, forming a map of your Soul's Agenda. Your **Soul's Agenda** consists of two components: Life Purpose and Life Lesson. **Life Purpose** is what you have come to do in this lifetime and **Life Lesson** is what you need to learn in order to do it.

Through this analysis you will have a clearer understanding of how the events in your life were an integral part of your soul's development. By giving meaning to these events and circumstances, it is easier to learn and grow from them

Fred Carreo is a transformational coach helping people realize their potential. He uses Scientific Hand Analysis to get to the core of a person's being, Transformational Coaching, for the encouragement and guidance to live their potential, and Yoga Therapy, for the physical and mental attitude to put it into action. In addition to counseling people he is a Kundalini Yoga Teacher, and writer. Fred currently resides in Barcelona and travels throughout Europe and North America where he provides counseling, gives workshops, and lectures.
