## Unlock Your Career Potential!

### Astrology Workshop with Zoe Hind

Many of us reach a point in our lives where we feel we are at a crossroads.

The working world can become a place of fear and financial insecurity, competitiveness and obligation; as our inner self yearns to follow a more gentle lifestyle in tune with our spiritual integrity. We often sacrifice our dreams and natural talents to follow a life of increasing stress, long hours and draining routine. Your astrological chart can help you to unlock your secret treasures and reform your ideas in a way that brings the joy and purpose back to your daily life.

In this workshop we will investigate the areas of your chart that indicate career, success, talents and creativity. Through a combination of guided assistance and practical exercises, you will be helped to break free from restrictive thinking patterns, gain greater perspective and realise your full capabilities.

Taking time out for re-orientation will help you find your bearings and put you back on course to travel the productive and enjoyable life-path that is uniquely yours.
