## 'Rebalance' : Successful Relationships

### Astrology Workshop with Zoe Hind

In this workshop we will explore the male/dynamic and female/receptive aspects in our astrological charts to see where blocks may reside and adjustments can be made in order to live in harmony with ourselves, others and the Universe.

At the time of the Autumn Equinox, the Sun representing masculine, dynamic power balances with the Moon's feminine receptive energy as day and night hours reach equal levels. Many planets pass through Libra - the sign of relationships - and these cosmic forces call us to recalibrate our own masculine and feminine energies.

Entering into the darkest days of the year, we prepare psychologically to journey into our inner space to cleanse, nurture and rebalance our essential being in preparation for the next active cycle of life the following Spring.

As within, so without ...when we resonate in alignment with our true vibration, we experience a deep sense of well being and effortlessly attract successful relationships.

Saturday 24th September / 10:00am - 1:00pm
