Paolo Bisazza

SHAMANIC REIKI

Shamanic Reiki is an evolving, ecstatic art guiding us to come back to our true self, achieving a deeper understanding of the energetic world we inhabit and our power within it. Paolo offers a unique blend of Shamanism and Reiki, expanding ways of working with Universal Life Force Energy. He merges his innate skills of psychic channelling, shamanic sight, clairaudience and clairvoyance to intuitively scan and assess the energetic body.

By connecting with the Spirit realm, the clients are truly involved in their own healing in which they can interactively receive effective benefits on the energetic, emotional, and physical level. In this particular aspect of Shamanic Reiki, ancient Spirit, animal guides, the client's higher self and other spiritual forces are often called upon to fully support the journey of the client. This direct communication with the guides assists greatly in the path of healing. Stunning visualizations or getting in contact with personal guides, and feeling a sense of remarkable restoration, balance and inner clarity are a few experiences that may colour this deeply profound therapy.
