SCORPIO NEW MOON MEDITATION & GONG BATH WITH ROMA

The New Moon in Scorpio happens on 26 October at 20:56 in London. Scorpio is one of the most intense signs of the zodiac. It is absolutely the most misunderstood. Why? Because Scorpio's world is on the inside and most people aren't close enough to the Scorpio to be invited in. It's the sign of privacy, intrigue, mystery, passion and of course sexuality. The serpent is a well known Scorpio image of birth, death and regeneration. Scorpio is a water sign and is associated with the planet Pluto. He's not a very nice guy and usually gets his way. This Scorpio New Moon has 4 planets in Scorpio all together. That's 40% of the planets in the sign of the underworld. The occult, or the hidden, has always been a Scorpio interest. Many mystics, gurus, devotees and serious students are Scorpio. This sign likes to go as deep into the unknown as they can. So directing all this powerful Scorpio energy during meditation is profound. Saturn, the planet of focus, has a blue line or is harmonious with Neptune, the planet of inner peace. That aspect will also enhance that inner power. To add an extra jolt, the big guy Jupiter is opposite the New Moon. Jupiter always stirs things up and makes the event even more grand. Plan to do an uninterrupted, intense, focused and powerful meditation. It doesn't get much deeper than Scorpio.
